1. Engagement Logistics

- **Test Window:** [Start Date] to [End Date]
- **Tester Timezone:** [e.g., CET - Central European Time (UTC+1)]
- **Client Timezone:** [e.g., EST - Eastern Standard Time (UTC-5)] — *Always verify locally; never assume!*
- **Authorized Target CIDRs:**
    - [e.g., 192.168.10.0/24 - Production API]
    - [e.g., 10.5.0.0/16 - Staging Environment]

2. Forbidden Actions

The following activities are strictly prohibited at all times without prior written approval:

- **Denial of Service (DoS):** Executing stress/load tests or activities that could degrade production availability.
- **Network Disruption:** Performing MAC flooding, spanning-tree (STP) manipulation, or ARP spoofing on production switches.
- **Data Destruction:** Modifying, destroying, or exfiltrating any production data.
- **Physical Intrusions:** On-site social engineering, lockpicking, or unauthorized physical access to facilities. [1]

3. Out-of-Scope Hosts

Testing must not touch the following assets under any circumstances: [1]

- **[Asset 1 - e.g., 192.168.20.50]** (Production Database Server)
- **[Asset 2 - e.g., 10.5.5.99]** (Out-of-band Management Interface)
- *Note: If the client is unable to provide or define out-of-scope hosts, this absence of asset management is a significant security finding.*

4. Emergency Contacts

If an outage or critical incident occurs, immediately cease testing and contact:

Role	Name	Phone	Email
Primary Client Contact	[Name]	[Phone]	[Email]

Client SecOps / NOC	[Name/Team]	[Phone]	[Email]
Lead Penetration Tester	[Name]	[Phone]	[Email]
Engagement Manager	[Name]	[Phone]	[Email]

5. Sign-off

By signing below, all parties agree to the scope, forbidden actions, and communication channels outlined above.

Client Signature: _____ Date: _____

Tester Signature: _____ Date: _____
